

## Proposed Wal-Mart Supercenter Analysis Form

Examine the **4 proposed locations** for developing a new Wal-Mart Supercenter using the Google Earth file: **Wal-Mart sites.kml**. Respond to each item for all 4 locations in the chart below. After you have completed the chart, **recommend the best location** to develop a new Wal-Mart Supercenter.

	<b>Location A</b>	<b>Location B</b>	<b>Location C</b>	<b>Location D</b>
Describe the <b>current land use</b> of the proposed site? (What does the land area look like?)				
What <b>natural features</b> are in the area?				
What <b>man-made features</b> are in the area?				
Describe the <b>nearby population areas</b> . (Can people walk to the site? How far away are residential communities?)				

<p>Describe the <b>existing infrastructure</b>. (Are there existing roads and commercial or business areas near the location).</p>				
<p>Describe <b>new infrastructure</b> that will be needed for this site. (Will new roads need to be built? Do you think the site has easy access to water and electricity?)</p>				
<p>Describe the <b>positive impacts</b> of the site location. (What are the <b>benefits and advantages</b> of having a Wal-Mart at this location?)</p>				
<p>Describe the <b>negative impacts</b> of the site location. (What are the <b>disadvantages</b> of having a Wal-Mart at this location?)</p>				

The **best site** that will have minimal impact on the environment is: \_\_\_\_\_
